EXPERIENCE & TRAINING

Eraasoft

Front-End Track Trainee

July 2025 – Present

Cairo, Egypt (Remote)

- Engaged in project-based training focusing on the practical implementation of React.js and Tailwind CSS.
- Graduating by developing a comprehensive Front-End capstone project integrating modern web technologies.

Digital Egypt Builders Initiative (Road Masr)

Front-End Web Development Trainee

July 2025 – Dec. 2025

Egypt

- Completed an intensive program sponsored by the Ministry of Communications focusing on modern web standards.
- Graduated successfully by delivering the **"Event Linker"** web application.

PROJECTS

3D Car Showcase App | React.js, R3F, Tailwind, Framer Motion

- Built an interactive 60-FPS 3D web app allowing users to rotate and zoom high-quality car models.
- Loaded compressed .glb models asynchronously using React Suspense and implemented dynamic layout animations.
- **Live Demo:** [cars-project](#)

Modern E-Commerce SPA | React.js, Tailwind, Context API, Formik

- Engineered a responsive e-commerce app with a complete checkout flow and dynamic product filtering.
- Managed global state for cart and wishlist seamlessly without page reloads using Context API.
- **Live Demo:** [vineta](#)

Restaurantly | React.js, Vite, Tailwind CSS, Context API

- Built a dynamic food ordering SPA with a custom real-time cart management system to handle item modifications.
- **Live Demo:** [restaurant](#)

Event Linker (Road Masr Capstone) | React.js, Tailwind, REST APIs

- Developed a comprehensive platform to create, manage, and discover events efficiently.
- Integrated RESTful APIs to handle dynamic data fetching and seamless user interactions.
- **Live Demo:** [event-linker](#)

EDUCATION

Egyptian E-Learning University

Bachelor of Science in Computers and Information

Expected May 2028

Cairo, Egypt

- Second-year student maintaining a strong focus on modern Front-End development and interactive web interfaces.
